Our team here at Overholt Metal Roofing Supply wants to help you through your roofing decisions. Our goal is to satisfy each customer and answer any questions that you might have. When you are redoing your roof, it can feel like a big job, but our sales team will help wherever you need it. We want to be able to have your metal ready as soon as possible so that you can meet your goals and time lines. And if you don't have that trailer or truck to haul the metal home, we are glad to have our delivery man do that job for you. Don't forget the screws and trim pieces. We have them for you.

# TUFFRIB

Tuff Rib is a great solution for your residential roofing needs. It can also be used for siding. Tuff Rib is very similar in looks to our PBR panel. The main difference is in the height of its ribs. It has five 3/4" ribs instead of four 1 1/4" ribs and they are spaced 9" apart instead of 12".

## SPECIFICATIONS:

- 36" width coverage
- 3/4" high ribs spaced 9" apart
- Gauges 26 and 29
- Akzo-Noble Paint or Galvalume finish
- Minimum roof slope 3:12

## LIMITED WARRANTY:

- Painted - 40 years
- Galvalume - 25 years
